

المركز العربي لتطوير حكم القانون والنزاهة Arab Center for the Development of the Rule of Law and Integrity

Introduction:

The Arab Center for the Development of the Rule of Law and Integrity (ACRLI), in collaboration with the United Nations Development Program (UNDP) is publishing a special booklet in a sequence of publications that the Center is preparing to issue:

This special booklet includes a group of regulations prepared by the Center's administration aiming at controlling the work and providing a suitable working atmosphere away from chaos and improvisation. More specifically, this booklet aims to improve work productivity and to raise the performance level of all the Center's workers.

It is known that a team work principally won't be successful, unless it has a scheme that shapes particularly the duties of each member, the work mechanism and other things that organizes the work. Therefore, the Center founded in 2003 took its institutional aspect after laying down its statutes published in this booklet,

- Memorandum of Association of a Civil Company
- Contract of license
- By-laws of the branch Centers
- By-laws of the supervising Board
- By-laws of the Board of Trustees
- Cooperation Covenant

Knowing that, all of these statutes are integrally published in the attached booklets.

Through the publication, the Center aims to put this booklet at the disposal of the people concerned, hoping that it will serve its purpose, and will provide the desired benefits.

President of the Center- General Manager
Judge Adib Salameh
