## Madamek Introduction

Madamek, founded in 1993, is a leading Arab software development company that specializes in information technology, legal databases, and management systems (DBMS). The company comprises legal, information technology, and documentation experts.

Madamek has been accredited by The Arab League Documentation Center (ALDOC) as a think tank in legal informatics, as well as an expert in the production of legal databases and web development.

## Madamek Services

- Developing legal databases and management systems (Web & Desktop Applications)
- Consulting, Contracting, and implementing information systems (DBMS)
- Developing electronic archiving systems.
- Writing studies on Information Technology, case management and tracking system.

## Madamek Partnership

- In 1994, Madamek has signed a contract of cooperation with ALDOC (Arab League Documentation Center) to develop the "Bulletin of Arab Official Gazettes" as a legal database containing the full texts of all Arab Legislation.
- In 1995, Madamek has formed a group of Arab lawyers aiming to produce PAN-ARAB legal databases.
- In 2004, Madamek has concluded a consortium with Version – legal translation company for translating legal documents.
- In 2005, Madamek has signed a partnership agreement with the Arab Center for the Development of the Rule of Law (ACRLI) [www.arabruloflaw.org](http://www.arabruloflaw.org) to combine their efforts for the dissemination of legal knowledge in the service of the Rule of Law.
